

REMARKS

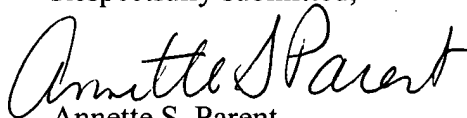

The Substitute Sequence Listing submitted herewith corrects errors in the Sequence Listing previously submitted on September 16, 2002. The Examiner's attention is directed to SEQ ID NOS:3, 4, 12 and 13 of the Sequence Listing which do not correspond to those sequences in the application as filed (SEQ ID NOS:12 and 13 on page 28 of the Specification and SEQ ID NOS:3 and 4 on page 1 of the informal Sequence Listing). The enclosed Substitute Sequence Listing has the corrections to these sequences properly incorporated. The previously prepared Sequence Listing inadvertently used incorrect sequences found in the priority application, US Provisional 60/163,367.

Applicants request entry of this amendment. This amendment is accompanied by a floppy disk containing the above named sequences, SEQ ID NOS:1-19, in computer readable form, and a paper copy of the sequence information which has been printed from the floppy disk.

The information contained in the computer readable disk was prepared through the use of the software program "PatentIn" and is identical to that of the paper copy. This amendment contains no new matter.

If the Examiner believes a telephone conference would expedite prosecution of this application, please telephone the undersigned at 415-576-0200.

Respectfully submitted,
